**Land Line No: 0992-402220/402171**
**Website: www.pkc.com.pk**

## Introduction

Millions of people are suffering from some degree of kidney failure in Pakistan, the worst form is complete kidney failure requiring dialysis or kidney transplant to sustain the life. Pakistani diaspora based in Jeddah KSA decided to provide this life saving treatment of dialysis to underserved and remote area of Pakistan, since such treatment facilities are only available in major/metropolitan cities. Under the umbrella of Pakistan Welfare Society Trust (PWS), in 2013 the foundation stone Pakistan Kidney Center (PKC) Abbottabad was laid down in north of KPK province.

In 2015 with 14 dialysis machines, the center started providing free dialysis to those who cannot afford this life saving treatment and since then **Thousands of Dialysis Sessions** are done. **Outreach Screening Program** to diagnose and treat major reasons for kidney failure, has been started in 2017 in the Hazara region by conducting free medical camps on periodic basis and thousands of patients are screened & treated. Construction of **Operation Theater** and day procedure unit is underway as a second phase of PKC expansion. Kidney Center Abbottabad aspires to become a **50 bedded hospital** equipped with state of art facilities to treat various kidney diseases, **Kidney Transplant** and focusing on **Preventive Heath**, **Research and Training**.

Ground Breaking & Opening Ceremony PKC

## Mission

To bring the state of the art facilities for Dialysis and treatment of kidney diseases for people of Pakistan, especially for the most deserving to save their lives and to help them to live near normal life

## Vision

PKC aspires to become a center of excellence for diagnosis, treatment, prevention as well as research on kidney diseases in Pakistan.
